POST SURGICAL REHAB

Recover your quality of life

www.PelicanPT.com

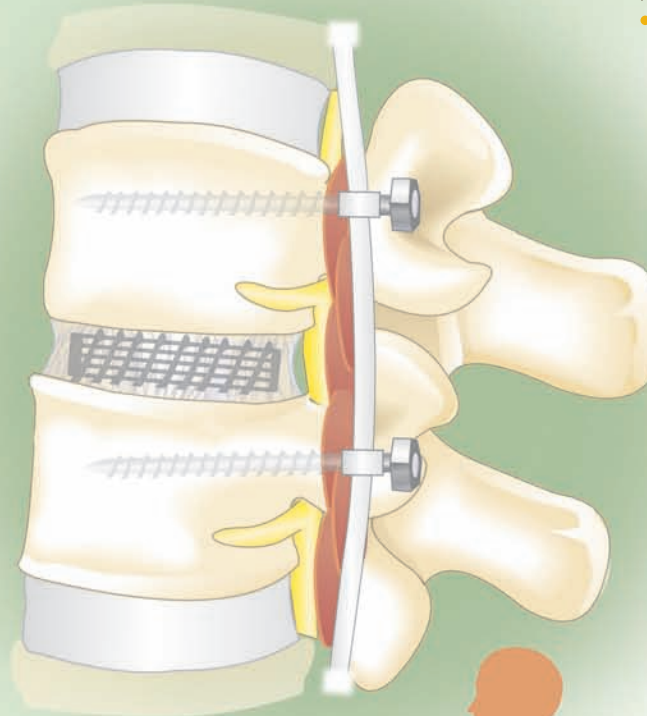

Physical therapists (PTs) are experts in the art and science of the evaluation and treatment of human movement dysfunctions. We care for people of all ages and treat a variety of muscle, joint and neurological conditions.

Post surgical cases we successfully treated:

- Total Hip & Knee Replacement
- Arthroscopic Surgical Repairs
- Spinal Laminectomy/Fusion/Discectomy
- Meniscus/Ligament Repairs
- Many others...

Advantages of Physical Therapy:

- No side effects
- Cost-effective
- Supported by clinical research*
- Restores loss of function

Surgery puts you ON the road to recovery, but Physical Therapy will help TAKE you there.

Your Recovery Process:

- Recovery of joint motion
- Recovery of strength
- Pain relief
- Improved function
- Independent care

Components of Your Care:

- A thorough biomechanical evaluation
- Extensive patient education
- Gentle hands-on techniques to relax the muscles
- Effective joint mobilization techniques to decrease stiffness
- Pain-relieving modalities such as ice, heat, ultrasound or electrical stimulation
- Progressive strength training
- Targeted stretching for tight muscles
- Functional re-education

Everyone is different. You may require one or two visits, or an extended care plan over several weeks or months.

Steps to take:

- Call for a *complementary* consultation with a senior Physical Therapist.
- We will discuss your complaint(s), answer questions & verify insurance.
- Visit our Website for answers to frequently-asked questions.
- Ask your physician to complete our referral form enclosed.
